Professional Experience

UI/UX/Front End Development Apprentice

CareerFoundry

Remote

July 2022 - August 2023

- Identified and applied design principles, heuristics, and patterns in app development to create visually appealing and intuitive user interfaces.
- Demonstrated proficiency in using design tools, such as Figma, to create wireframes, mockups, and prototypes for mobile apps and web interfaces.
- Utilized grid theory and responsive design principles to establish consistent and organized content layouts for various screen sizes.
- Developed a strong understanding of typography, color theory, and visual design basics to create compelling and aesthetically pleasing UI elements.
- Conducted user research through interviews and persona creation to deeply understand user needs and preferences.
- Applied Lean UX principles to craft user-centric experiences and gather requirements for design projects.
- Communicated effectively with mentors and peers to implement design solutions and managed constructive feedback to improve designs.
- Demonstrated proficiency in frontend development skills, including HTML, CSS, and JavaScript, to create functional and responsive web pages.
- Developed a polished and professional online portfolio, showcasing a diverse range of UI/UX design projects and frontend development work.

Physical Therapist Assistant

Philadelphia, PA

Promedica

October 2021 - July 2022

- Demonstrated adaptability and quick decision-making in a fast-paced rehab setting, providing timely and effective physical therapy services.
- Collaborated seamlessly with interdisciplinary teams, patients, and caregivers, ensuring shared understanding of patient needs and delivering comprehensive care.
- Educated patients and their families about treatment progress and post-discharge care, using clear and concise communication skills.
- Utilized analytical thinking and creative problem-solving to address unexpected challenges and optimize treatment plans for positive outcomes.

- Upheld professionalism, integrity, and a strong work ethic in a demanding environment, fostering trust among patients and colleagues.

Physical Therapist Assistant

Jenkintown, PA

Genesis Healthcare

March 2021 - October 2021

- Coordinated effectively with the interdisciplinary team to plan and execute long-term patient care, ensuring continuity of rehabilitation services.
- Maintained organizational excellence and meticulous attention to detail in documentation and billing for Medicare and managed care insurances.
- Applied analytical thinking to optimize treatment plans over the long term, incorporating data-informed decisions for continuous improvement.
- Communicated and educated residents, families, and caregivers about treatment status and equipment needs, facilitating a smooth transition to home care.
- Demonstrated adaptability to address diverse patient needs and ensure ongoing rehabilitation success.

Projects

Modish Nest

2023

Furniture Store Web App | UI Designer/UX Designer/Product Designer

- Translated user needs into design solutions with user flows and low-fidelity wireframes using design thinking principles.
- Conducted data-driven design decisions through user and preference testing on mid-fidelity wireframes.
- Applied clean visual design principles to create a responsive web product, adapting mobile designs for desktop breakpoints.
- Presented final designs through mock-up creation.
- Developed a cohesive brand identity with comprehensive brand guidelines, including guiding principles, logo, colors, iconography, typography, images, illustration, and writing style.

HomeBoost

2023

Native Mobile Home Automation App | UI Designer/UX Designer

- Conducted competitor analysis to identify user pain points and evaluate UI strengths and weaknesses.
- Formulated features and user flows based on research findings.
- Conducted rigorous user testing of the iOS and Android prototypes to ensure user-centric designs.
- Developed low, mid, and high fidelity wireframes aligned with the user flow.
- Applied iOS and Material Design principles to create functional native designs, enhancing both versions with visual design principles.

Localite

2022-2023

Restaurant & Venue Recommendation Responsive Web App | UI Designer/UX Designer

- Leveraged competitor analysis, user interviews, and user testing to enhance user experience through a user-centric design approach.
- Applied lean UX principles, developed user personas, and validated design decisions through A/B preference testing.
- Presented visual direction with a mood board and maintained consistency with a style guide.
- Created accurate responsive wireframes for multiple breakpoints and refined design choices based on feedback and testing.
- Developed a comprehensive design with over 100 screens and showcased final designs through mockups.

Education

Physical Therapist Assistant

Delaware Technical Community College
